

With DBS WebSolutions, Your Satisfaction is Guaranteed!

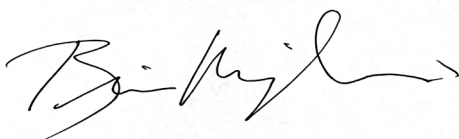

We appreciate you considering our services for your business. We know many business owners have had negative experiences working with companies in our industry, and it's about time the accountability is placed on the service provider, not the client.

At DBS WebSolutions, we do not bring clients on board unless we are 100% confident that we can meet and exceed their needs and expectations. Because of this, we offer our clients a 100% Money Back Guarantee on their website design and development.

At any time during the first 30-days, if you feel like our services are not going to work for you, let us know and we'll refund 100% of the money you have paid.

All We Ask In Return Is:

- **We Need Information:** The longer you take to get us the information we need for your website, the longer the build process will take.
- **Give Us a Chance:** If you are not happy with the initial draft of the website, you provide feedback and give us a chance to make it right.
